

4 QUALITY EDUCATION

BREMBO'S COMMITMENT

“DREAM CENTER”, QUALITY EDUCATION FOR CHILDREN IN RURAL AREAS (CHINA)

In the social and economic context of rural China, 61 million children in underdeveloped areas do not have easy access to quality education as well as 36 million children whose parents are migrant workers.

Brembo has sustained the NGO Adream's project by helping to redevelop two schools (Dream Centers) in the province of Anhui and on the outskirts of Shanghai.

TARGET

- Guarantee quality education for the more disadvantaged children in the area and the children of migrant workers.
- Narrow the education gap between the cities and the countryside.

ACTIONS

- Selecting and rebuilding classrooms in two existing schools.
- Defining a non-traditional teaching program which uses IT material with the aim of developing individual students' skills.
- Organizing a professional teaching course for the Dream Center teachers.

RESULTS

- Setting up of two Dream Centers for 791 children of primary school age.
- Improvement of the educational system which aims to stimulate students' skills and aspirations.
